

Judge's Neighborhood Security News

September 2017

Hello Neighbors and Happy Fall,

We have a security alert in the neighborhood.

I get occasional emails about stolen mail or items from a vehicle that was parked in the front of a home and left unlocked. That even happened to me about a month ago. But this weekend we had a more brazen act caught on film. A neighbor writes:

We had some packages stolen from our front entry on Sunday. We have very good photos of the thief and the car they were driving (see attached). They brazenly pulled into our driveway at one point. However, we don't have the license plate. The police are not making any promises that they will do anything without the plate number. I think they were cruising neighborhoods, as they drove by our house several times. I am hoping someone else's camera may have caught it and has a good view of the plate. They clearly drove by several times and probably turned around in someone else's driveway. The times the car went by our house were between 16:20 and 16:40 on Sunday, September 24, 2017. The passenger was a large white male wearing an orange t-shirt. The driver was wearing a white long-sleeved shirt, v-neck. Driver could have been male or female. The car was an older model black Dodge Charger. We are hoping to get a shot of the plate and a better look at the driver.

Any way you can appeal to both HOA's for the neighbors to check their cameras?

If you know anything about these people, please call Anne at **480-966-0870**.
